

Working with alternative energy from wind and solar farm construction to scheduled maintenance, your source for unparalleled quality.

## SUBSTATION SERVICES

- › Circuit Breakers
- › Combiner Boxes
- › Wind Energy Systems
- › Protection & Control Systems
- › Grid Interties
- › Switching / Disconnects
- › Grounding Systems
- › Steel Infrastructure
- › Electrical Bus
- › Cables, Power, Low Voltage
- › Transformers
- › Regulators
- › Reactors
- › Capacitors
- › Control Power
- › Grounding / Verification
- › Ground Grid Design & Installation
- › Control and Protection
- › Rectifiers
- › Generator Transmissions
- › Photovoltaic Systems
- › Acceptance
- › Maintenance
- › Commissioning
- › Circuit Breakers (all voltage classes/insulation)

## TESTING

- › In / Out of Service
- › Metering (All)
- › Revenue Meter Testing
- › Ground Testing
- › Power Factor / Correction
- › Protective Relays & Controls
- › Tap Changers
- › SF<sup>6</sup> Gas Services
- › Reclosers
- › All Voltage Classes
- › Voltage Regulators
- › Network Protectors
- › Infrared Thermography
- › Revenue Metering
